

Josh Messitte

1149 N Taylor St, Arlington, VA 22201 • (301)-910-5674 • joshmessitte@gmail.com

Profile

An information security engineer specializing in software development and cloud security. A proven track record of working autonomously and collaboratively to bring large-scale business problems from design to production.

Education

University of Georgia

Masters of Science in Computer Science
GPA: 4.00

Athens, GA
2021-2022

Bachelors of Science in Computer Science
GPA: 3.89

Athens, GA
2018-2021

Experience

Information Security Engineer II

Appian Corporation

McLean, VA
April 2024-Present

- Designed and built a comprehensive vulnerability scanning framework for a FedRAMP-compliant cloud environment using full stack AWS development and tooling deployment.
- Built a comprehensive CI/CD pipeline which allows other engineering teams to seamlessly perform OS scanning and compliance auditing on their builds.

Information Security Engineer

Appian Corporation

McLean, VA
January 2023-March 2024

- Significantly expanded security scanning coverage across both corporate and customer cloud environments by deploying a software agent at a company-wide level.
- Built out Appian's risk monitoring platform for third party SaaS applications, increasing overall security posture.

Cyber Intern

Booz Allen Hamilton

Annapolis Junction, MD
June 2021-August 2021

- Built an end-to-end application using open-source technologies and random forest machine learning models to classify and detect malicious activity within TLS-encrypted network traffic.
- *Project won first place at the Booz Allen Hamilton Summer Games summer games internship.*

Cyber Intern

Booz Allen Hamilton

Annapolis Junction, MD
January 2023-March 2024

- Developed a framework of command-line tools for malware triaging, tagging, and analysis. Tools included a twitter scraper, a Slackbot, and a Random Forest machine learning model.
